

# MATERIAL SAFETY DATA SHEET

## Section 1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

## Section 2. Composition and Information on Ingredients

CAS Number	Chemical Name
9002-88-4	Polyethylene
25087-34-7	Ethylene-Butene Copolymer
25213-02-9	Ethylene-Hexene-1 Copolymer

## Section 3 Hazard Identification

### Emergency Overview

The Polyethylene sheet is not expected to be an inhalation hazard under normal processing

"conditions. If the material is processed under prolonged exposure to flame or high temperature,"

"thermal burns to the skin may occur, and the gases produced may irritate the respiratory system."

### Potential Health Effects

"Eye, skin and inhalation due to exposure to flame (molten plastic)."

### Primary Routes of Exposure

"Routes of entry could include eye, skin and inhalation, due to exposure to flame (molten plastic)"

### Potential Environmental effects

"If processed scrap is controlled by the customer, no negative ecological effects are expected."

#### Section 4 First-Aid Measures

##### Inhalation

"Remove affected individual to fresh air, seek medical attention if difficulties in breathing occur."

##### Skin

"If skin has contact with molten material, place affected area under cold running water. Seek"

medical attention for removal of material from the affected area.

##### Eyes

"If there is contact to the eyes with molten material, rinse with plenty of water and seek immediate"

"medical attention. If fines enter the eye, rinse with water for 15 minutes, and seek immediate "

medical attention if irritation develops.

#### Section 5 Fire-Fighting Measures

##### Suitable Extinguishing Media:

"Dry extinguisher, water, carbon dioxide, foam"

##### Protective Equipment for Fire-Fighting

Firefighters should be equipped with self-contained breathing apparatus.

##### Hazardous Combustion Products

"During a fire, carbon dioxide, carbon monoxide, water vapor, and trace organic compounds may be"

generated by combustion and thermal decomposition of the material.

## Section 6 Accidental Release Measures

The Polyethylene material in sheet form is not applicable for this section.

## Section 7 Handling and Storage

### Handling

Protect against flame and intense heat.

### Storage

"Store in well ventilated area, avoid extreme heat and any sources of ignition, or open flames."

### Secondary Use / Reprocessing

"When reprocessing material for secondary use, ground all handling equipment. Keep material"

and dust produced away from high heat and flame. Use good housekeeping practices when

reprocessing material.

## Section 8 Exposure Controls and Personal Protection

### Personal Protective Equipment

### Respiratory Protection

During processing respiratory protection may not be necessary if

ventilation is adequately

"provided. At excessive processing temperatures, breathing protection may be required."

#### Hand Protection

Gloves may be required when processing the sheet due to sharp edges and when plastic is in the molten state.

#### Eye Protection

Safety glasses with side-shields are recommended.

#### General

"Avoid contact with molten material on the skin, eyes and clothing. Handle product in accordance "

with good industrial hygiene and safety practices.

### Section 9 Physical and Chemical Properties

#### Physical State and Appearance

Solid Polyethylene Sheet.

#### Flashpoint

650 deg. F

#### Autoignition Temperature

> 650 deg. F (estimate)

#### Melting Point

230 deg. F - 275 deg. F

## Section 10 Stability and Reactivity

### Stability and Reactivity

This product in the finished state (sheet) is stable. Avoid temperatures over 650 deg. F.  
or above.

### Incompatibility with Various Substances

Reactive with strong oxidizing agents.

### Hazardous Decomposition Products

"Hazardous decomposition products are carbon monoxide, carbon dioxide, water vapor, and "  
trace organic compounds.

## Section 11 Toxicological Information

### Chronic Effects on Humans

Not applicable

### Other Toxic Effects on Humans

"In plastic sheet form, not considered dangerous to humans."

## Section 12 Ecological Information

"No information is available, but no ecological hazard is suspected."

## Section 13 Disposal Considerations

#### Waste Information

"Transfer to an approved disposal area in accordance with federal, state and local regulations."

#### Section 14 Transport Information

##### DOT Classification

"Not a DOT controlled or regulated material, (US)."

#### Section 15 Regulatory Information

##### OSHA Classification

Nonhazardous.

##### TSCA

Components of this product are listed on the TSCA Inventory.

##### CERCLA

This material is not subject to special reporting under the requirements of the Comprehensive

"Environment Response, Compensation and Liability Act."

##### SARA Title III

This product does not contain Section 313 Reportable Ingredients.

"Based on information presently available, this product does not meet any of the hazard definitions"

of 29 CFR Section 1910.1200.

No Proposition 65 chemicals present at levels that would require a warning under the California

Safe Drinking Water and Toxic Enforcement Act.

Section 16 Other Information

Hazardous Material Information System (U.S.A)
